

WORKSHOP 4

Marketing Mindset

by Doina ■erbul

BWork Bali · Coworking Space & Cafe

A practical guide to building a personal brand on Instagram through Stories, Posts, and Reels — with content pillars, idea banks, and step-by-step frameworks.

Overview: The 3 Main Subjects

This workshop focuses on the three pillars of Instagram content that together build a strong personal brand:

1. STORIES	2. POSTS	3. REELS
Daily visibility, personality, and trust-building.	Pinned content, carousels, and proof of expertise.	Reach, discoverability, and authority through video.

1 • Stories

Stories keep you constantly visible. Even if someone doesn't see your posts, they see your face daily — you become familiar, and trust grows.

Stories show consistency + personality. And personal brand = not just what you say, but how often people experience you.

Who would you trust more: someone whose values, way of thinking, and lifestyle you know — or a complete stranger?

Photo Types to Use in Stories

- **Selfie photo** — taken with the front camera, usually to capture yourself.
- **Side-angle photo** — taken from the side for a different perspective.
- **Mirror photo** — your reflection in a mirror, often used to showcase an outfit.
- **Object photo** — focused on objects around you, not on yourself.
- **Environment photo** — your surroundings or elements around you.
- **Photo collage** — multiple images combined into one picture.
- **Old photos** — images from the past, used to evoke memories or show transformation.
- **Photo shoots** — pictures from a professional shooting session.
- **Pinterest-inspired** — images styled to your personal aesthetic.
- **Neutral background** — grey or beige backdrop to highlight the subject.

3 Content Pillars for Stories

Every story you publish should fall into one of three pillars: **My Personality**, **My Life**, or **My Expertise**.

Pillar 1 — My Personality

- bullet Tell a story about an event that changed you, an important meeting, or a key insight.
- bullet Describe the phase you're currently going through and what you feel.
- bullet Share memories from the past with your associations, feelings, emotions, and photos from your personal archive.
- bullet Reveal your core values or priorities through a real-life story.
- bullet Talk about your short-term goals across different areas of your life.
- bullet Show your energy with a video montage or a selection of photos.
- bullet Mention key achievements you're proud of.
- bullet Reveal a personality trait through a specific situation or interaction.
- bullet Share a message from your DMs and use it to express your perspective.
- bullet Create a recurring Q&A format: *Personal questions / My take on... / This or that*.
- bullet Highlight your talents or strengths through a real situation or interaction.
- bullet Reflect on what truly matters to you in life, relationships, or work.

Pillar 2 — My Life

- bullet Talk about a friend or family member through facts, stories, their current situation, or their talents and achievements.
- bullet Show how you relax, spend free time, your hobbies, how you prepare for a busy day, or how you manage multiple tasks.
- bullet Talk about your current routine: nutrition, sleep, workouts, education.
- bullet Unbox purchases or gifts with your audience, or let them help you choose what to buy.
- bullet Share what books you're reading and what series or movies you're watching.
- bullet Give a tour of where you live (apartment, room, house, neighborhood) or a new location.
- bullet Show the process behind your activities (cleaning, cooking, working, walking, dancing, training, commuting, self-care).
- bullet Show something from your phone (notes, gallery, apps, conversations).
- bullet Plan a spontaneous trip and share it step by step with your audience.
- bullet Show your entire day in detail.
- bullet Talk about your daily routine and consistent habits.
- bullet Share your plan for the day and document how you accomplish it.

Pillar 3 — My Expertise

- bullet Share your journey of becoming an expert and highlight key stages and main insights.
- bullet Show the process behind your work (with a client, at your laptop, in a meeting).
- bullet Explain a small topic from your field — answer a common question from your audience.
- bullet Talk about current trends or a problem in your industry, start a discussion, show how you would use it, and include opinions from your DMs.
- bullet Share why you chose this field and what you love about it.
- bullet Offer a simple, short plan (3–5 steps) related to your expertise — e.g. steps to create a website, how to write a profile bio.
- bullet Talk about how you developed your expertise and who you learned from. Highlight their authority and achievements.
- bullet Share your learning plan as an expert, your future goals, or the challenges you face.
- bullet Create a recurring Q&A format: *Expert Q&A* / *What to do if...* / *Follower situation analysis*.

Highlights — Set Them Up First

Set up your Highlights first, so you can build your storytelling more strategically.

4 Core Highlight Categories

1. About Me / Start Here	Who you are · who you help · your story (short version) · your vibe and personality. <i>This helps people connect with you instantly.</i>
2. Results / Proof	Client results · transformations · testimonials (messages, screenshots) · before/after. <i>This answers: "Does she actually get results?"</i>
3. Value / Tips	Quick tips · mini trainings · common mistakes · frameworks. <i>This answers: "Is she worth following?"</i>
4. Lifestyle / Personal	Daily life · behind the scenes · travels, routines, gym, etc. <i>This answers: "Do I like her?"</i>

2 • Posts

Carousel Posts — Tips & Tricks

- bullet **Hook on first slide** — e.g. *"Here's what most people get wrong about X..."* or *"Stop making this mistake..."*
- bullet **Each slide = 1 clear idea / step / tip.**
- bullet **Use client screenshots**, graphs, or visuals if possible.
- bullet **Final slide = CTA** — e.g. *"Save this"*, *"DM me to work together"*, *"Try this today"*.

Carousel Post Categories

Educational / Tips	5 mistakes people make when starting their online business.
Step-by-step / How-to	How to turn followers into paying clients step by step.
Transformation / Before & After	From disorganized workflow to running a smooth business in 30 days.
Myth-busting / Challenges	5 false beliefs about social media marketing for small business owners.
Storytelling / Personal Example	How I overcame self-doubt as a coach and started working with clients.
Frameworks / Cheatsheets	Quick guide: building your first online offer in 5 days.

Pinned Posts — The 3 Essentials

Your three pinned posts are the first thing visitors see. They should answer the three core questions every new follower silently asks.

1. Introduction Post (Who you are)	Who you are · who you help · what result you offer · a bit of your story and personality. <i>This creates clarity and connection instantly.</i>
2. Value Post (Your expertise)	Carousel (tips, mistakes, frameworks) or a strong educational reel. Examples: "5 mistakes that keep you stuck in your fitness journey", "Why your content isn't converting (and how to fix it)". <i>This builds authority (also works as a reel).</i>
3. Proof / Results Post	Client transformations · testimonials (messages, screenshots) · before/after · case studies. <i>This answers: "Can she actually help me?"</i>

3 • Reels

4 Key Elements of Every Reel

- bullet **Hook (first 3 seconds)** — grab attention immediately.
- bullet **High-quality video** — clear visuals, good lighting, vertical format.
- bullet **Music / audio** — use trending or suitable sounds to enhance engagement.
- bullet **Description / caption** — write clear, motivating, or value-driven text.

The Right Mindset for Reels

You don't need to create the "first viral video" immediately. Just focus on learning how to use Instagram and creating content consistently.

3-Step Process to Make a Reel

Step 1 — Pick a Video Example

- bullet Find a motivational video that inspires you.
- bullet You can use any video you see online as an example.
- bullet The goal: adapt it to your niche and personality.

Step 2 — Adapt It

- bullet Take the main idea, structure, or message of the video.
- bullet Adjust it to reflect your own niche or personality.
- bullet Add personal insights or a twist so it's authentic.

Step 3 — Write Your Own Description & Pick Audio

- bullet Don't copy captions — write your own.
- bullet Keep it clear and motivational.
- bullet Use trending sounds that match the energy of your video.
- bullet Check Instagram or TikTok for currently trending audios.

3 Types of Reel Content Styles

Type 1	Talking Video — in front of the camera, or audio-only voiceover.	<i>Mindset tip: Change your standard.</i>
Type 2	Motivation / Showing your values — short clips with a value-driven text overlay (e.g. <i>"The only way to impress me is being a good person"</i>).	
Type 3	Tips & tricks — read in the description. Use a scroll-stopping cover and let the caption deliver the value.	

Hook Examples — Type 3 (Tips & Tricks)

Base topic: *5 ways to organize your day for more energy*. Three alternative hooks you can rotate:

bullet 5 unusual ways to organize your day that actually boost energy.

bullet Most people do this wrong every day... 5 ways to fix it and boost energy.

bullet 5 things successful people do to have more energy... are you doing them?

Quick Recap

Build your personal brand on Instagram by working three layers in parallel:

Stories — daily presence across the three pillars (personality, life, expertise). Set up Highlights first.

Posts — three pinned posts (intro, value, proof) supported by carousels across six categories.

Reels — start simple, stay consistent, and rotate three styles (talking, motivation, tips & tricks).

**Personal brand = not just what you say, but how often people experience you.
Consistency beats virality. Show up, every day.**
